Jeff Jones, Lydia Saad  
August 5-9, 2015

---

Results are based on telephone interviews conducted August 5-9, 2015 with a random sample of 1,011 adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is  $\pm 4$  percentage points at the 95% confidence level.

For results based on the sample of 504 national adults in Form A and 507 national adults in Form B, the margin of sampling error is  $\pm 6$  percentage points.

For results based on the sample of 485 adults who are employed full- or part-time, the maximum margin of sampling error is  $\pm 6$  percentage points.

For results based on the sample of 213 parents with children in Kindergarten through Grade 12, the maximum margin of sampling error is  $\pm 9$  percentage points.

For results based on the sample of 514 men, the maximum margin of sampling error is  $\pm 6$  percentage points.

For results based on the sample of 497 women, the maximum margin of sampling error is  $\pm 6$  percentage points.

For results based on the sample of 1,011 adults, the margin of sampling error is  $\pm 4$  percentage points at the 95% confidence level.

21. *(Asked of a half sample)* Do you think people who work at home using their computers to connect to their business offices are more productive, less productive, or just as productive as people who work in a business office?
22. *(Asked of a half sample)* Do you think people who work at home during the day using their computers to connect to their business offices are more productive, less productive, or just as productive as people who work in a business office?

**COMBINED RESULTS (Q.21/Q.22): BASED ON FULL SAMPLE**

	<u>More productive</u>	<u>Less productive</u>	<u>Just as productive</u>	<u>No opinion</u>
